---

<sup>1</sup> Schedule requests may be made until preliminary schedules are distributed but as many requests as possible are requested to accompany team commitments.

<sup>2</sup> Schedule changes may be made during the review period after preliminary schedules are distributed and before schedules are called final but teams must first contact each other to agree on any change.

<sup>3</sup> When schedules are called final, it means referee assigning has begun. Game changes may then only be made through the formal process requiring a request form and fee.
