

# Whisper Weekend Reminder

Good Afternoon,

Week **SIX** of eight is now in the books, so this is the sixth of eight *Whisper Weekend Reminders* you will be receiving. The reminder is a way to update you on the progress of the program and keep the program *fresh in your mind*. This way over the next few days, it will be easier to remember and remind one another to Whisper their frustration rather than vocalizing it and creating a negative environment.

The Whisper Campaign information below is collected and tabulated as game sheets come in and email or voice complaints are received. As you can see, game sheets don't always make it to us very quickly. Currently, we have only received about **77%** of the game sheets and **68%** Whisper rating Sheets from games played. Therefore, the information we are providing below is only a snapshot.

## ***Complaints Received***

We are looking into two complaints regarding the same game last weekend. The first complaint indicated a parent sat on the opposing team's sideline and continually berated the officials and players. Another complaint from the same game indicated that a group of dads from one of the teams was out of line using profanity at the official. In this situation an altercation between two parents from opposing teams almost took place as one had to be "held back".
